SCOTO 5

TO: BUD MC FARLANE

FROM: BRENT SCOWCROFT *BS*

On paragraph one of TOSCO 160, I do not recall having a memorandum on the subject. I do recall your discussing it with me, I believe during the Helsinki trip. It was my impression that there would be a gap of only two to three weeks total. Your description in TOSCO 160, however, leaves the impression that this may be a fairly lengthy process. Could you get more information from Wickham?

With regard to paragraph two, since we have not sent any for four years, it escapes me why all of a sudden there is this urgent need. You may check with Sonnenfeldt but I do not believe we should do it right at the moment.

I will check with HAK on the A-7 delivery rate to Greece, but my feeling is he will want to ask the President to reduce it. I will let you know.

You may send the cable to Alex Johnson contained in TOSCO 172.

You may initial the memo to Bob Hartman on Mother Seafon's Canonization (5098).

Warm regards.
